Snow Assistance Dollars Announced

Senator Robert Hedlund (R-Weymouth) announced the snow and ice distribution figures for Duxbury today. Due to the harsh winter and excessive snow this region has seen so far this year, there was a supplemental budget proposed by the Senate, which would reimburse towns which have already surpassed their snow removal allotments.

The Senate will report out this bill Wednesday, then present it to the Governor for his approval. Through this bill Duxbury will be in line to receive \$28,808. The entire Senate district would receive \$372,786 in funding from the emergency budget. "The local highway departments have been shouldering quite a bit this winter. This relief will allow them to continue along doing their outstanding work," Hedlund said.
